

MX-U SERIES

The MX-U Series of Industrial Vision Processors offers superior image processing capabilities and outstanding inspection flexibility. The MX-U Series supports the USB 3.0 Vision interface standard for high speed digital camera communication. Featuring the latest Intel® chipsets, the MX-U Vision Processors deliver outstanding computing performance at affordable prices. Three different models are available according to the application requirements: the entry-level cost-effective MX-U20 supporting two cameras, the mid-range MX-U40 powering four cameras, the high-end quad core MX-U80 delivering maximum processing speed to four cameras. A single vision processor supports multiple independent cameras resulting in application flexibility while dramatically reducing the cost per inspection point. Powered by IMPACT Software, the MX-U Series offers quick and easy application prototyping and deployment as well as seamless integration.

**USBTM**
VISION

HIGHLIGHTS

- Rugged, industrial, high-powered vision processors
- Multi-camera capability
- Multiple camera resolutions simultaneously supported by a single vision processor
- 2 or 4 high-speed USB3.0 camera ports
- Supports a wide selection of USB3.0 grayscale and color cameras, from VGA up to 5Mpix
- Complete IMPACT Software Suite included for ultimate programming flexibility

BENEFITS

- Supports up to four unique cameras to meet varying application requirements
- Shared processing reduces cost per inspection point
- Increased inspection power and USB3.0 data transfer speed for higher inspection rates
- Reduces cost by eliminating additional PC for operator user interface
- State-of-the-art Intel chipsets ensure long term product availability
- Easily integrates with smart cameras for data sharing and inter-camera communication without needing a PC

TECHNICAL DATA

	MX-U20	MX-U40	MX-U80
CPU	Intel® Celeron 1047UE 1.4 Ghz – dual core	Intel® Celeron 1020E 2.2 Ghz – dual core	Intel® Core i7 3615QE 2.3 Ghz – quad core
System memory	4 GB DDR3 RAM		8 GB DDR3 RAM
Storage	60 GB SATA SSD (MLC)		128 GB SATA SSD (MLC)
Graphics	Intel® HD 3000 (1920x1200 resolution) – DVI		
Camera interface	2x USB3.0 ports – 5 Gb/s max 1 A max per connection	4x USB3.0 ports – 5 Gb/s max 1 A max per connection	
Camera imager limit	2Mpix or lower	None	
Network interface	2x LAN ports – 10/100/1000 Mbps Base-T		
Serial communications	1x RS-232 serial port		
Keyboard/mouse	2x USB3.0 ports	1x USB2.0 port	
Comm connectivity	Supports Ethernet/IP, Modbus TCP and OPC		
I/O	16x opto-isolated digital inputs 16x opto-isolated digital outputs – current sinking		
Operating system	Windows Embedded Standard 7		
Supply voltage	24 VDC +/- 25%		
Nominal current draw	5.5 A @ 24 VDC		
Dimensions	270 (H) x 130 (W) x 255 (D) mm – 10.6 (H) x 5.1 (W) x 10 (D) in.		
Weight	2050 g		
Housing	Galvanized plate – plastic		
Operating temperature	0 to 55° C – 32 to 131° F		
Operating humidity	10 to 90% (non-condensing)		
Mechanical protection	IP20		
Certifications (safety compliance)	CE, c-UL-us

U-CAMERA

The U-Camera Series offers excellent performance packed into an incredibly compact housing (29x29x47mm). Ranging from VGA up to 5 MPix imager resolutions, the U-Cameras are available in both grayscale or color models providing the maximum application flexibility. The U-Camera Series supports the new USB 3.0 Vision communication protocol delivering ultra-high image transfer speeds to tackle even the most challenging machine vision applications.

MODELS

GRAY-SCALE MODEL	COLOR MODEL	SHUTTER	RESOLUTION	IMAGER	FRAME RATE (FPS)	DIMENSIONS
U100	U100C	Global	658x492	1/4" CCD	120	29 x 29 x 47 mm (1.14 x 1.14 x 1.85 in)

CAMERA BRACKETS, U-SERIES CAMERAS		
Camera Mount, M1xx, M6xx and U1xx Camera		95A903029

NOTES

* Supports two USB 3.0 cameras with 2MP resolution or lower.

** Supports four USB 3.0 cameras. No limitation on camera resolution.

*** Dongle must be purchased and installed to make IMPACT running on MX-U Vision Processors.
