EMS, a Datalogic Group Company, is the field-proven leader in the development and application of Radio Frequency Identification (RFID) Tags/Labels/PCBs, Antennas, Controllers and network interface modules for tough industrial environments. With over a dozen years of RFID successes in the automotive, electronics, material handling and food processing industries, EMS has built a global reputation in providing customers with complete supply chain solutions – from production to retail EMS has the complete solution!

EMS' FastTrack™ line of RFID Tags/Labels/PCBs and Reader/Writers (or Antennas) provides outstanding RFID solutions for demanding industrial environments. From scorching paint ovens to post office parcel tracking applications, the FastTrack™ family of RFID Tags/Labels/PCBs and Reader/Writers deliver on all of your data collection and tracking demands.

The FastTrack™ family of RFID Tags/Labels/PCBs use Philips Semiconductor I-CODE chips, but most important, use EMS' unique,

patented design and manufacturing technology to create the most advanced industrial RFID Tags.

EMS' reusable (or disposable) FastTrack™ Series Passive Read/Write RFID Tags, LRP125HT/ LRP250HT, are specifically designed for demanding manufacturing environments. The Tags are available in either a 25mm diameter or 50 x 50mm square versions. The FastTrack™ Tags also feature normal temperature surviving Tags (LRP125 / LRP250) in addition to the high-temperature Tags (LRP125HT/ LRP250HT).

Long-Range Read and Write distances, Multiple-Tag-In-Field Read/Write technology, industrial Antennas, DeviceNet Reader/ Writers, RFID Labels, high-temperature disposable FLX Tags...EMS' FastTrack™ family of products is your RFID solution.
