

# Passive Reader/Writers

## LRP820-02 / LRP830-02

**DeviceNet™**

### Features

- Serial Reader/Writer with Integrated Antenna
- Menu Configurable RS232 / RS422 / RS485 / MUX32
- Passive Tag Requires No Batteries
- NEMA 12 (IP65)
- Four Industrial Input Points and Four Output Points
- 23-25VDC Operation

### Applications

- Material Handling
- Sortation Systems
- Work-in-Progress Monitoring
- Quality Control

### Use With

- LRP Series Tags
- CM11 / CM12 DeviceNet Modules
- CM21 InterBus-S Module
- CM30-Series Profibus Modules
- CM40-Series Modbus Plus Modules
- CM52 Remote I/O Module
- CM80-Series ControlNet Modules
- CM900 / CM1000
- CM1746 RFID Module
- Any RS232 and RS422 Host
- CM1000

**EMS**, a Datalogic Group Company, is the field-proven leader in the development and application of Radio Frequency Identification (RFID) Tags/Labels/PCBs, Antennas, Controllers and network interface modules for tough industrial environments. With over a dozen years of RFID successes in the automotive, electronics, material handling and food processing industries, EMS has built a global reputation in providing customers with complete supply chain solutions – from production to retail EMS has the complete solution!

EMS' FastTrack™ line of RFID Tags/Labels/PCBs and Reader/Writers (or Antennas) provides outstanding RFID solutions for demanding industrial environments. From scorching paint ovens to post office parcel tracking applications, the FastTrack™ family of RFID Tags/Labels/PCBs and Reader/Writers deliver on all of your data collection and tracking demands.

The LRP820-02 was designed for communicating to EMS' FastTrack™ family of Tags where space is a constraint. The smaller size of the Antenna allows us to read the FastTrack™ Tags more efficiently.

The LRP820 refers to the tough, IP66 encased, industrial controller and is equipped with four input points and four output points. Sensors, light towers and photo eye switches can be directly hooked up to the LRP controller – greatly reducing wiring installations to the host PC/PLC.

The Long-Range DeviceNet Reader/Writer (LRP830-02) provides all the same benefits as the LRP820-02 with the added advantage of an

integrated DeviceNet interface module. If your application involves a DeviceNet bus network, and you demand absolute data capture accuracy, then the all-in-one FastTrack™ DeviceNet Reader/Writer is the perfect solution.
